All seems clothed in brightness. The home," in a very tasty and creditable manner.

That splendid old piece, "Rory O, Moore," was next executed by four little girls, on two Pianos, in a very spirited manner.

All seems clothed in brightness. The flowers are in full bloom, and their perfume floating on the air. Why, then, should I appear sad in the midst of so many youthful hearts, bounding with joy and gladness at the approach of vacation! I stand severed and alone, at this trains moved. and alone, at this trying moment. There is a low, but deep thrilling voice hovering around, which bids me say Farewell! Can it be? or is it some delusive dream, which would fain disturb my imagination? Oh, would it were so; but, alas, it is no shadowy

> and as each one of us wends our course through the mazy labyrinth of life, let us never forget the rich treasures of learning and virtue so often inculcated in our gone by hours of trial and study. I go! but oh, "When affection one sigh for the absent shall raise, Think, think of the friend of your earlier days!" Must I bid adieu to you, beloved sisters? Must I leave you to enter life's pathway untraveled and new! Yes! But when, like a nestless bird, I seek shelter from the storm without, will I oft revert to your unwearied kindness and affection, in soothing my child-

ish cares and troubles. Oh, yes! a potent spell will often draw me back, and so fresh SECOND CLASS IN ORTHOGRAPHY AND READING. will be the thread of early memory, that I First Premium—Miss L. Sexton, C. Duffy, will live my school days over again. May joy gild your way through this valley of tears. Intomched by earth's blight, undisturbed by Most Reverend and beloved Father, deephand my first rewards were received for my

AYERIS Ague Cure.

Intermittent Pever or Pover and Ague Romittent Fever, Chill Fever, Dumb A Tue, Periodical Headache, or Hillous Headache, and Blicous Fevers; indeed for the whole Class of Diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.

by the Malarra of raissmatic countries.

No one remedy is londer called for by this necessities of the American people than a ure and self-care for Ferre and Ague. Such a remedy we are now enabled to offer, with a perfect certainty that it will erudinate the disame, and with assurance, founded on proof, that he harm can arise from its see in any quantity.

That which presents from or prevents this disorder must be of immense service in the commanification where it prevails. Prevention is better than care, for the putient escapes the risk which he must run it violent attacks of this baleful distemper. This "Cene" expels the missematic poison of Favan Area Acre from the system, and prevents the development of the matic poison of Favan Ann Acus from the system, and prevents the development of the disease, if taken on the first approach of his premoultary symptoms. It is not only the best remedy awar yet discovered for this class of compilates, but also the cheapest. The large quantity we supply for a dollar brings is within the rusch of every body; and in hillous districts, where Favan and Aous prevails, every body should have it, and use it freely, both for turn and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the discase.

left as lealily as if they had never had the disease.

Fever and Ague is not alone the consequence of the minimatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatian, Gont, Heudache, Blindiness, Toothache, Earaehe, Catarrh, Asthma, Palpitation, Painful Affection of the Splesm, Hysterics, Pain in the Bowels, Colic, Paralysis, and Dorangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curac" expels the poison from the blood, and consequently cares them all alike. It is an invaluable protection to immigrants, and persons travelling or temporarily residing is the milanious districts. If taken occasionally, ar daily, while exposed to the infection, that will be excreted from the system, and cannot securinalists in sufficient quantity to riper into disease. Hence it is even more valuable for protection than care, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC

are so composed that disease within the range of their section can rarely withstand or evade them. Their penetrating properties search, and classes, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of those properties, the invalid who is bowed down with pain or physical doblity is astonished to find his health or energy restored by a remady at once so simple and inviting.

Not only do they came the every-day complaints of every body, but also many formaduble and dangerous diseases. The agent below mamed is pleased to farnish gratis my American Almanac, containing certificates of their cures and directions for their wie to the following complaints: Contineness, Heartburn, Headache arising from disordered Nomech, Nouvez, Indicestion, Pain in and Marbed Inection of the Bowel, Flatishey, Loss of Appetite, Junatice, and other kindred complaints, arising from a low state of the body or distruction of the functions.

Do not be put off by unprincipled Denlers with some other pill they make more profit on. Ask for Avian's Paille, and take nothing else. Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup. Bronchitis, Incipient Consumption, and for the relief of Consum we Patients in sevenced stages of the

So wide is the field of its usefulness, and so mamorous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the langs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have falled and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never furget, and produced cures too numerous and too remarkable to be forgotion.
